

DIRECTIONS: Take two capsules in the morning, or as directed by your healthcare practitioner.

Medical Supervision recommended, please consult your healthcare practitioner for possible interactions with other medications. Do not use if tamper seal is damaged.

Adiposano™ has been shown to reduce the release of Adipokines from fatty tissue and thus normalizing Leptin sensitivity and counteracting Leptin resistance. Leptin imbalance is particularly common among obese patients with elevated cardiovascular risk.*

***These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure, or prevent any disease.**

STORAGE: Keep closed in a cool, dry place out of reach of children.

DOES NOT CONTAIN: Wheat, gluten, yeast, soy, dairy products, fish, shellfish, peanuts, tree nuts, egg, ingredients derived from genetically modified organisms (GMOs), artificial colors, artificial sweeteners, or artificial preservatives.
